# **“FIVERSFORARTISTIC”**

“ARTISTIC is a non-profit mentoring programme for emerging artists ”

We know we can provide the environment for these young men and women to take their place in the art world. Each Artist has already achieved much critical acclaim demonstrating highly imaginative work. All of our Artists have successfully exhibited their work and achieved sales. They have also contributed to supporting the Royal Berkshire Hospital umbrella Charity , Resources for Autism , Fragile X , JAC's and Anna Kennedy Online through the sale of their artwork.

The aim of **“FIVERSFORARTISTIC”** is to collect 250 old fivers and convince *important contemporary artists* to sign and then decorate the fiver in any way they wish making the note completely original. Artistic will then auction the collection of fivers to raise enough money to launch Artistic as a CIO charity. We have had a great response so far from some amazing artists ranging from Peter Blake to Mason Storm and the wonderful *duos* of Gilbert and George and the Chapman Brothers. We have now collected 170 completed fivers but we desperately need more . We now have lovely one from Mr. Hirst. Where is the **BANKSY** fiver ? Come on let's make this happen in 2018 ? We know it can be done!
